

Championship Performance.

Your ride deserves nothing less than world-class suspension.

How good are Eibach springs, **Pro-Street-S** coilovers and other vital suspension components? Well, think of it this way: In 2006, Eibach-equipped race cars captured Drivers' Championships in Formula 1, NASCAR Nextel Cup, Champ Car, the IRL and the World Rally Championship—just to name a few.

The Eibach parts we make to give your car its winning edge—are made with the same top-quality materials, painstaking craftsmanship, and bulletproof durability that took all those drivers to victory. To learn more—visit Eibach.com and take a high-speed tour inside Eibach USA.

Congratulations to Pierre Kleinubing and the RealTime Racing team for another Speed World Challenge Championship!
